Add Intelligence to Your Collaboration System

The VB 200 combines a full HD camera with powerful speakers and microphones that makes it a complete solution for any small conference room or executive office. Built-in intelligence enables the camera to track speakers anywhere in the room.

Conference Room | Board Room

Simplify your video collaboration

Experience Clarity Like Never Before

Wide Angle View

120° Field of view ensures all persons in the room fit into the frame so you don't miss out on the group

Speaker Tracking

Automatically focus the camera on the speaker for a more realistic collaboration experience
